

3-DAY SKINNY-FAT STARTER PLAN

A simple meal-prep reset for your first three days.

QUICK START

This starter plan is for skinny-fat beginners who want to stop guessing what to eat and start with a simple structure.

It is not a crash diet, a full transformation program, or a medical nutrition plan. It is a short starter system for getting your first three days organized.

THE STARTER LOOP

SAFETY NOTE

This guide is for general education and organization only.

It is not medical advice and does not diagnose, treat, or cure any condition. If you have a medical condition, food allergy, history of disordered eating, or take medication that affects diet or weight, talk with a qualified professional before changing your eating routine. Results vary.

THE 3-DAY STARTER LOOP

Prep repeatable ingredients, build protein-first plates, and reduce food decisions.

1

BUILD AROUND PROTEIN

Every meal over the next 72 hours starts with a strong protein anchor. No exceptions.

2

PREP ONCE

Cook your proteins and carbs before Day 1 begins. A plan only works if the food is ready.

3

REPEAT THE STRUCTURE

Do not reinvent your meals. Eat the same basic layout to remove decision fatigue.

SIMPLE GROCERY LIST

PROTEINS

- Chicken breast or thighs
- Lean ground turkey
- Tuna packets
- Eggs & Greek yogurt
- Protein powder

CARBS

- White or jasmine rice
- Potatoes (sweet or white)
- Oats
- Wraps / Tortillas
- Fruit

VEGETABLES

- Mixed greens
- Broccoli
- Bell peppers
- Cucumber
- Frozen mixed vegetables

FATS & FLAVOR

- Olive oil & Avocado
- Salsa & Hot sauce
- Low-calorie sauce
- Seasoning blends

CONVENIENCE BACKUPS

- Pre-cooked chicken
- Microwave rice pouches
- Frozen steamable vegetables
- Ready-to-eat salads

THE PREP BLOCK

Complete this block before Day 1 begins.

The goal is to eliminate cooking from your daily schedule for the next three days.

- Cook or portion two protein options.
- Prepare one or two carb options.
- Wash or portion vegetables.
- Set aside sauces and seasonings.
- Build at least one meal ahead so Day 1 is automatic.

DAY 1: EXECUTION

DAY 1

GOAL: MAKE IT EASY

Do not aim for a perfect diet today. Aim to execute the meals you prepped without relying on random snacks.

MEAL STRUCTURE

PROTEIN + CARB + VEGETABLES + FLAVOR

END OF DAY CHECK-IN

Did I make the next meal easier before I needed it?

DAY 2: REPETITION

DAY 2

GOAL: REPEAT, DON'T REINVENT

Boredom is not the enemy; inconsistency is. Use the same framework and swap only one item if needed.

MEAL STRUCTURE

PROTEIN + CARB + VEGETABLES + FLAVOR

END OF DAY CHECK-IN

Did I hit protein first at each main meal?

DAY 3: REFLECTION

DAY 3

GOAL: NOTICE WHAT WORKED

Keep the easiest meals and remove the friction points. You are building a system, not a temporary fix.

MEAL STRUCTURE

PROTEIN + CARB + VEGETABLES + FLAVOR

END OF DAY CHECK-IN

Which meal would I easily repeat for another week?

EASY SWAPS

PROTEIN

Chicken, turkey, tuna, eggs, Greek yogurt, lean beef, tofu.

CARBS

Rice, potatoes, oats, fruit, wraps, pasta in controlled portions.

VEGETABLES

Mixed greens, broccoli, peppers, carrots, frozen mixes.

FLAVOR

Salsa, hot sauce, Greek yogurt sauces, seasoning blends, mustard.

THE NEXT STEP

if this 3-day starter plan helped you feel organized, the next move is the **14-Day Skinny-Fat Cut Meal Prep System**.

The 14-Day system gives you a longer structure, more planning support, and a clearer path for staying consistent beyond the first few days.
